Week of June 10, 2013

BOARD COMMENTS: STRATEGIC PLAN ON DISTRICT STAFFING

On June 4, 2013, the Board of Education held a special meeting to discuss **Governor Brown's** proposed budget in depth. Several presenters explained the Governor's Local Control Funding Formula (LCFF) and legislators' responses. As mentioned in last week's *Update*, a resolution sponsored by **Bennett Kayser, Dr. Richard Vladovic** and **Steve Zimmer** received its initial announcement during the meeting. Entitled *Creating Equitable and Enriching Learning Environments for All Los Angeles Unified School District Students*, the resolution will be considered at the Board meeting of June 18, 2013. Following are comments made at the meeting by AALA President, **Dr. Judith Perez**, regarding the budget and the resolution:

Good morning, Mr. Superintendent and Board members. My name is Judith Perez; I am President of Associated Administrators of Los Angeles. AALA fully supports the Governor's LCFF and signed a letter with you and other members of the L. A. Compact endorsing it. To us, it's a matter of justice for our students. We have encouraged our members to communicate with their legislators and support it, as well.

I am here today to urge you to develop a long-term, strategic plan to address staffing in LAUSD. Eight months ago I stood at this podium and informed you that our administrators are overwhelmed by their current workload. Every day I continue to receive phone calls and e-mails from our members reminding me that their commitment to maintaining the safety of students and staff, the numerous initiatives they must implement, the multitude of interruptions and dearth of administrative support make it extremely difficult to focus on instruction. They worry about properly implementing the new teacher evaluation system, the A-G requirements, Common Core and restorative justice programs. They are concerned about the supervision of instruction, extracurricular activities and after-school programs. They want to work closely with parents and community members. They can't do it alone.

California is now the 49th state in the United States in funding for public education. AALA members are fully aware that the worst recession since the Great Depression has forced our District to hang on in survival mode. In fact, austerity has become the norm. Because Los Angeles County voters made sure Proposition 30 passed in the November election, we finally can look beyond mere survival. No child should be shortchanged because a principal is forced to choose between school safety and high-quality instruction. No administrator should be expected to routinely work 60-70 hour weeks, at the risk of his/her health and well-being. These are the reasons we urge the District to increase the number of assistant principals at all levels.

Finally, let me repeat what I said last October: You simply cannot run a school, visit classrooms, engage parents and handle the multiple issues that occur on an hourly basis without a greater level of staffing. We strongly support a strategic plan to reduce class size, restore office staff, custodians, human service professionals, library aides and increase the number of assistant principals throughout the District. Our goal is for students, parents and the larger community to be well served.

RESPONSES TO QUESTIONS REGARDING ESY

At the last AALA Rep Assembly meeting, elementary members raised some concerns regarding the Extended School Year (ESY) for students with disabilities. Below is the response from **Sharyn Howell**, Executive Director of the Division of Special Education. We wish to thank her for her responsiveness.

- 1. Are the principals that are returning to their regular assignment responsible for the closing out activities and paperwork for ESY if it is held at their site?**

The Division of Special Education has assigned an administrator to each ESY site for administrative coverage during the entire ESY period. This administrator will be responsible for the closing out activities and paperwork for ESY as well as other ESY administrative duties. Principals returning on their regular basis to their school during the last week of ESY are not responsible for the overall supervision of the ESY program. However, as the primary administrator at the school, the principal is responsible for the overall safety of students and staff as well as the operations of the campus upon their return and would be expected to assist the ESY administrator in an emergency or provide appropriate support when needed.

- 2. Are SAAs working during ESY and who will do their ESY tasks when the principal and the SAA return to their regular basis?**

ESY site administrators may select the SAA of their choice from the online application roster. The SAA returning to his/her regular SAA assignment will continue to support the ESY program hosted at his/her school site. An important task of the SAA is to complete the final time reporting for staff at the ESY site. Sixteen (16) hours of additional time will be allocated to each school hosting an ESY program to support the work of the SAA. The MCD clerk at each site will return to his/her regular basis during the final week of ESY and can also support special education activities at the ESY site. The principal may use the 16 additional hours provided to fund a relief clerk to assist the SAA during the 4 days prior to the MCD clerk returning on their regular basis or may allocate the additional hours to the SAA.

- 3. Are the ESY custodians separate from the regular custodians assigned to the school and what happens with the custodial services when the principal returns to the school on his/her regular basis?**

Plant managers and building/grounds workers are on duty during ESY and, in general, continue to support their assigned sites supplemented with overtime, as needed, to support the ESY programs. The ESY site principal may contact the Complex Project Manager if there is difficulty arranging for needed overtime coverage or to address additional site maintenance needs during the last week of ESY. The Division of Special Education provides funding to Maintenance and Operations to support custodial services at the ESY site.

*We appreciate the work that is involved in preparing for the opening of school by the site administrators and the dedication of the administrators serving the ESY programs. If you have any questions, please contact **Oscar Rodriguez** at 213-241-6701.*

HEALTH BENEFITS FAQ

TOPIC: HEALTH PLAN DISCOUNTS FOR COMPLEMENTARY AND ALTERNATIVE TREATMENTS

Last week’s FAQ addressed complementary and alternative medicine (CAM) options that are included in our District health plans. This week, we expand the topic to include discounts for CAM treatments when your plan offers no coverage or if you reach your coverage limits.

What kinds of discounts are offered through our District health plans?

Anthem Blue Cross (HMO and EPO), Kaiser (HMO and Senior Advantage) and Health Net (HMO and Seniority Plus) **all** offer complementary care discounts through **ChooseHealthy™**, a program by American Specialty Health that focuses on complementary health care. Check your plan’s website for detailed information. You’ll find discounted rates on: fitness club memberships; chiropractic care; acupuncture; massage therapy services; herbs, vitamins, and supplements; and health and fitness books and videos. Visit ChooseHealthy’s website, <http://www.choosehealthy.com>, to access providers.

Do any of our health plans offer other discounts besides ChooseHealthy™?

- Anthem Blue Cross’ program, called SpecialOffers@AnthemSM, offers discounts for weight loss programs such as Jenny Craig®, Weight Watchers®, Lindora® and LivingLean. There are also fitness and fitness equipment discounts through GlobalFit™ and discounts on vitamins and even e-coaching for stress management, tobacco/alcohol cessation and personal e-coaching for weight loss.
- Kaiser offers discounts for the 10,000 Steps program.
- Health Net HMO members are eligible to receive discounts for weight loss programs—Jenny Craig® and Weight Watchers®; eyewear through EyeMed; and hearing aids and screenings through Newport Audiology Centers and Beltone™.
- Health Net Seniority Plus members are also eligible for the Silver and Fit program which provides Medicare members with either a no-cost membership to a fitness center or an in-home fitness kit. This program is provided by American Specialty Health.
- UnitedHealthCare Medicare Advantage HMO provides basic membership in a fitness program at a network location.

How do discounts work with our medical insurance coverage?

A discounted program is not the same as insurance. Members should check their medical plans to see if the benefits you seek are already covered before using any discounted programs. For example, several of our District plans already offer chiropractic care and acupuncture. When you use any of the discounted services, you pay the service provider directly at the point of service.

What are some helpful tips in seeking complementary and alternative therapies?

- Make sure you know about the costs: What does the first appointment cost? What do follow-up appointments cost? How many appointments will you likely need? Are there any additional costs (e.g., tests, equipment, supplements)? On the ChooseHealthy website, you can see the fee structure for treatments.
- If a treatment is covered by your health insurance, check whether treatment needs to be preauthorized or preapproved by your primary care provider or ordered by a prescription.

For additional information, contact your health plan or go to your plan’s website.

EXECUTIVE BOARD MEMBERS

ALA's Executive Board members, representing all departments, have worked diligently on behalf of all. We thank you for serving our members throughout the year.

UNIT J CLASSIFIED
