Week of June 23, 2014

WELCOME BACK, MR. MAGRUDER!

On Sunday, June 15, 2014, the young grandson of an AALA staff member noticed on the table an article she had clipped from the *Los Angeles Times*. He read the title, *An L.A. Unified Watchdog Gets Punished for Barking*, and said, “Well, that’s mean. Dogs are supposed to bark.” Out of the mouths of babes! She explained to him the metaphor **Steve Lopez**, the writer of the article, was using and the grandson replied, “Then they should just let him do his job.” As **Walenn** ran off to do other things, she realized that he had hit the nail on the head. Why not let **Stuart Magruder** just do his job? Wasn’t he just carrying out his role on the LAUSD Bond Oversight Committee (BOC)?

Stuart Magruder was selected by the American Institute of Architects (AIA) two years ago to represent them in their seat on the BOC, a committee that was formed to represent taxpayers and reassure them that bond revenues were being spent wisely. The BOC is composed of a group of 15 volunteer citizens who truly have no vote on policy decisions or binding authority, but can publicly raise important questions about expenditures related to the bonds. The story began when the LAUSD Board voted to not reappoint Mr. Magruder to his position on the BOC in May. Board Member **Tamar Galatzan** opposed his reappointment because she felt that he had overstepped his boundaries by questioning curriculum and policy related to the \$1 billion purchase of iPads for every student, teacher and administrator in the District. She was quoted in the Times as saying, “He’s an architect and ... has made many forays into telling the instructional people how to do instruction...I think it’s inappropriate...”

Yes, Stuart Magruder has been one of the most vocal critics of the iPad mega-project, raising some prescient questions (some of which are loosely paraphrased below) that were timely, compelling and justified:

- Is the purchase of iPads an appropriate use of money that has been earmarked for construction?
- Why iPads versus other, possibly less expensive tablets or laptops?
- Why was the need for keyboards not determined prior to the purchase?
- Why was the software purchased sight unseen, in some cases before even being developed?
- Why was there so little teacher training?
- Who is responsible for lost and damaged tablets?

It was not that he was opposed to the use of technology or wanted to deny students access to current tools, his “...primary concern was that there clearly was no strong pedagogical idea behind this program...” He felt that the proposal was poorly planned, not enough collaboration with teachers occurred and that the District was buying an old, legacy version of the iPad that was going to be out-of-date in a few years (with more than 20 years still left to pay on the bonds). Once Magruder started asking the tough

questions, the media, parents, AALA and others joined in. As a result, the District renegotiated with Apple to get a reduced price and a current version of the iPad and then voted to somewhat slow down the rollout.

These efforts cost **Stuart Magruder**, a parent of two LAUSD students, his position on the BOC. But he would not go quietly. Making his removal from the BOC a public issue brought him waves of support from various organizations, blogs, the media and individuals. The *LA Times* ran an editorial titled *LAUSD Has Enough Yes-Men; It Needs Stuart Magruder* in which it called the Board's move *terrible on several fronts*, saying that the iPad proposal was passed with a *disturbing swiftness and lack of critical thinking*. The *Times* said that LAUSD should be grateful to have Stuart Magruder to protect bond dollars from misuse.

Even though the Board removed Mr. Magruder from the committee, the local chapter of AIA remained firm that he was their appointee to the committee and disagreed that the Board could reject their choice. On Tuesday, June 17, 2014, in a 4-2 vote, Stuart Magruder was reappointed to the BOC. **Steve Lopez'** article on Wednesday, June 18, was titled *Watchdog Back on the Job*. Now the AALA staff member can tell her grandson that Mr. Magruder can again do his job—at least for another two years. AALA applauds the Board President, **Dr. Richard Vladovic**, and Board Members, **Bennett Kayser**, **Mónica Ratliff** and **Steve Zimmer**, for their thoughtful decision to reinstate Mr. Magruder to this most critical role. Welcome back, Mr. Magruder.

GOOD NEWS FOR EARLY CHILDHOOD EDUCATION

*AALA thanks **Deborah Aguet**, Principal, Hawaiian Avenue Early Education Center, for providing some of this information.*

The final California State Budget included funding for early childhood education programs which adds thousands of new slots and restores reimbursement rates. However, it still leaves the state nearly 40 percent short of the revenue the programs had prior to the recession. Authored by California State Senator **Darrell Steinberg** and called the Fair Start proposal, the \$264 million budgeted amount will be used to:

- Provide 11,500 new, full-day and full-year preschool slots for low-income 4-year-olds by the end of the budget year. The agreement also repeals the existing fee for the part-day California State preschool program, saving those low-income families \$15 million.
- Improve Transitional Kindergarten Standards—These new quality standards include specific state guidance on curriculum (California Preschool Learning Foundations) and early childhood education credits and/or work experience requirements for newly placed transitional kindergarten teachers, beginning in 2015-16, who will have until the 2020 school year to meet education and work experience requirements.
- Enhance Preschool Quality & Infrastructure—An ongoing \$50 million annual grant to support quality improvements in California State Preschool at the local level and \$35 million in one-time funds for professional development, state preschool quality projects and preschool facility loans.
- Restore Rates, Childcare and Early Start—The agreement includes \$69 million in increases to reimbursement rates for all early learning and childcare programs (ages 0-5), \$17 million to restore 1,500 slots for other childcare programs and \$8 million to restore Early Start services to infants and toddlers with substantial disabilities.

HEALTH BENEFITS FAQ

TOPIC: SUN SAFETY – SEEK SHADE AND USE SUNSCREEN!

Why is too much sun exposure harmful?

Statistics from the Centers for Disease Control (CDC) show skin cancer to be the most common form of cancer in the United States. Of the three common types of skin cancers, the most dangerous is melanoma. The CDC estimates that 65%–90% of melanomas are caused by exposure to ultraviolet A (UVA) rays, mostly from the sun, but also from tanning devices.

Are there other risk factors for getting skin cancer?

While anyone can get skin cancer, a person may be at increased risk if s/he has fair skin, blue or green eyes, naturally blond or red hair, a skin that burns or reddens easily, freckles, many moles, a family history of melanoma, a personal history of sunburn and/or skin cancer, excessive sun exposure and other factors.

What are the risks of overexposure to the sun in the Los Angeles area?

Sun exposure risk is measured by a numeric UV index between 1 (low) and 15 (extremely high). During warm to hot weather in Los Angeles, the UV index is usually around 10, meaning exposure risk is “very high.” Look for the UV index when accessing weather forecasts, or check the UV index at the EPA’s website: <http://www2.epa.gov/sunwise/uv-index>.

What’s the best protection against the sun?

To help prevent sunburn and skin cancer, seek shade as much as possible, cover up, wear sunglasses, a hat and use sunscreen daily. The strongest UV rays occur during the midday hours between 10 a.m. and 4 p.m., even on cloudy or hazy days. It’s important to take precautions against sun exposure every day of the year, not just during the hotter summer months.

With so many SPF values, how do I select the best protection?

Look for sunscreens that provide “broad spectrum” protection against both UVA and UVB rays, with at least a SPF 15 rating.

- Apply sunscreen at least a half hour before going outside. Remember to apply lip balm with SPF, as well.
- Apply liberally—at least 1 oz. to cover the whole body. When fully clothed, use at least one tablespoon on the face, neck and arms. Wear sunscreen under clothing—a light T-shirt provides SPF protection of about 5 to 8.
- Reapply after swimming or sweating and about two hours after the first application.
- Check the sunscreen’s expiration date. Sunscreen has a shelf life of up to three years.

What does the SPF value on sunscreens indicate?

SPF stands for “sun protection factor” and indicates a sunscreen's UVB protection. Sunscreens are tested to measure the amount of UV radiation exposure it takes to cause sunburn when using sunscreen, compared to UV exposure with no protection. For example, if a person without sunscreen gets sunburned in 10 minutes, using sunscreen with SPF 15 offers 15 times, or 150 minutes of protection. It’s a common misconception to conclude that sunscreens with a higher SPF value provide proportionally longer protection. According to the American Melanoma Foundation, SPF 15 absorbs 93% of UVA, while SPF 34 absorbs 97%.

FAQ (Cont.)

Are there Federal Drug Administration (FDA) standards for sunscreens?

Yes, all sunscreen products must pass the FDA's broad spectrum test against both UVA and UVB radiation and must have the words "broad spectrum" and "SPF 15" (or higher) on the front of the product. Sunscreen labels can claim "water resistance," followed by either 40 or 80 minutes. Additionally, sunscreens will not be able to claim sun protection for more than two hours or a higher SPF value than "50+." Higher SPF values may mean the sunscreen was produced prior to December 2012 when the new FDA rules went into effect.

UTLA has announced its support of **Dr. George McKenna** for election to the School Board; in addition, the three teachers who were on the primary ballot also gave their support to him. This is a major win for Dr. McKenna and just highlights his appeal and his qualifications for the position. Although the election will not be held until August, much of the voting will be done by absentee ballot this July. It is incumbent that we financially support this campaign and get the word out early to encourage voters to choose AALA- and UTLA-endorsed Dr. McKenna. The opponent, **Alex Johnson**, is getting streams of outside money from wealthy donors such as **Eli Broad**, the Charter School Association and members of the Coalition for School Reform (former mayor **Antonio Villaraigosa's** group that tried to oust **Steve Zimmer**). **Robert Skeels**, candidate for the Board in the last election, posted this scathing comment on his blog on April 11:

Only in a city run by the vile Eli Broad could a candidate like Johnson, who only views LAUSD as a political stepping stone, be considered a viable candidate for such an important position. Johnson is getting \$1,100 a shot contributions from charter school tycoons, right-wing bankers, and real estate developers. 195 contributions for \$113,051 to Alex Johnson Campaign. NOT ONE teacher, principal, librarian, or social worker on the list! It's beyond disgusting, it's deplorable.

Congratulations!

South Region Elementary School #10, located in ESC West, has officially been named in honor of **Marguerite P. LaMotte**, former Board Member, administrator and teacher in LAUSD. Ms. LaMotte passed away suddenly last December, as the school was beginning its naming process. The entire school community, led by Principal **Doramanda Higuchi**, agreed upon the name. On June 17, 2014, the Board of Education approved the naming of South Region #10 ES as Marguerite P. LaMotte Elementary School.

Dr. Randall Delling, principal of North Hollywood High School, is beginning his term as president of the Association of California School Administrators for the 2014-15 year. Congratulations, Randy!

COMMITTEE MEMBERS 2013-2014

AALA continues to salute our members who represented colleagues this year on AALA, LAUSD and joint AALA/LAUSD committees, many of which required substantial time commitments. Because AALA members are active on so many committees, we were not able to recognize everyone last week. Here are the remaining members who have contributed to the functioning of the District, while making sure the needs and interests of AALA members were addressed.

LAUSD MIDDLE SCHOOLS COMPETE IN ORANGE COUNTY ACADEMIC PENTATHLON

LAUSD’s Beyond the Bell Branch sponsored the participation of four LAUSD middle schools in the Orange County Department of Education’s (OCDE) Academic Pentathlon. The Pentathlon is an exciting five-event competition (math, science, language & literature, social science, essay) for sixth, seventh and eighth graders. The program was started in 1964 to encourage and reward academic excellence, determination and teamwork for middle school students. Participation is open to public and private schools throughout Southern California.

The Pentathlon teams from LAUSD’s participating middle schools combined to win 118 individual awards, and the 8th grade team from Burroughs placed first in their division. Two of the schools fielded two teams each – Sepulveda, 6th and 7th grade teams, and Los Angeles CES, 7th and 8th grade teams.

Congratulations to the following participating middle schools, principals and teacher/coaches:

<u>SCHOOL</u>	<u>PRINCIPAL</u>	<u>TEACHER/COACH</u>
Adams MS	Evelyn Wesley	James Midgley
Burroughs MS	Steve Martinez	Beverly Pearson
Los Angeles CES	Harold Boger	Ray Robinson
Sepulveda MS	Kimberly Noble	Kathleen Roth

Alvaro Cortes, Executive Director, and **Pete Anderson**, Pentathlon Coordinator, Beyond the Bell Branch, are to be commended for providing this outstanding academic program for middle school students. For more information about the program, contact Pete at 818.438.9064.
