## ABRACADABRA! AND 3027 IS GONE!

“Prestidigitation,” loosely translated, means actions taken with quick fingers! And with the stroke of a red pen, a couple of vaguely opaque sentences, and a dash of hocus pocus the District made the unthinkable happen in the Superintendent’s Final Budget 2018-19: The disappearance of Program 13027 funds. (Click [HERE](#) to view budget.)

Page 2 of an Inter-Office Correspondence from **Dr. Scott Price**, CFO, to the Board of Education and the Superintendent (click [HERE](#)) indicates:

*The 2018-19 Final Budget includes a change in General School Site Program carryover (Program 13027) which will limit carryover up to 5% of the school’s budget.* Practically speaking, the highlighted sentence affects Program 13027 effective July 1, 2018. For example, a school that received an initial allocation of \$100 in Program 13027 in June 2017, spent \$85 of it during the year, now has a remaining balance or anticipated carryover of \$15. But, with the 5% limit applied, the maximum the school can carryover is \$5. The remaining \$10 returns to the District to balance the budget. In this example, it does not seem like a significant impact; however, on a school-by-school basis, this can have major negative repercussions on the daily operations of the school for the 2018-19 school year.

The more shocking news is the sentence that follows: *It also calls for the release of carryover for various school site, central office, and districtwide programs at the end of 2018-19.* On the surface, the term “release” seems innocuous enough. Earlier, the document indicates, “Appendix I of Attachment A provides the list of programs that will no longer be carried over.” Upon review of the attachment, it appears “release” means much needed school funds will be seized from schools and offices to the tune of \$697.0 million in 2018-19 (click [HERE](#)). It is important to note in the attachment that the District intends to “release” \$20.7 million from filming and non-filming programs in 2018-19. The irony here is that because school administrators understand the importance of generating additional funds to make ends meet, they take the calculated risks to allow filming and other activities to occur on their campuses in order to subsidize and enhance the instructional program for students. It appears the District is making it very clear, these funds will not be available for carryover when schools go to budget meetings in March 2019 for the 2019-2020 school year. As importantly, funds not carrying-over will have a detrimental impact on personnel as the resources will not be there to purchase much needed additional positions. *It would, therefore, seem prudent to expend all of the funds being “released” to the District by December of 2018 or sooner, to avoid losing them due to potential sweeping or freezing of accounts at any point in the school year.*

Page 3 of the correspondence (click [HERE](#)) is no harbinger of good news for AALA frontline managers at central and Local District offices either as the first line of the Proposed Fiscal Stabilization Plan shows a \$42.9 million **Central Office Reduction** in 2019-20 and 2020-21 school years respectively. The second line proposes to **“Address the Administrator to Teacher Ratio (R2)”** to the tune of \$35 million for 2018-19, 2019-20, and 2020-21. AALA is investigating exactly what this means. In the worst case and most

disastrous of scenarios, is it the District's intent to release administrators to the tune of \$35 million by June 30 of this year? And to make matters worse, the Additional Fiscal Stabilization Plan calls for the "Reed Discontinuation of Program" to the tune of \$26.9 million in 2019-20 and 2020-21.

The District's mantra these days is Integrity, Transparency, and Accountability. However, with the proposed budget, the District receives a FAIL on all three, woefully lacking in any integrity, transparency, or accountability. The issue of restricting carryover funds first reared its ugly head in an interview with **Dr. Price** in *LA School Report* in February of this year. AALA immediately followed-up, and to date, the email below has gone *unanswered*.

On Feb 7, 2018, at 3:28 PM, Flecha, Juan <[juan.flecha@lausd.net](mailto:juan.flecha@lausd.net)> wrote:

Greetings, Dr. Price:

I am beginning to receive phone calls regarding the excerpt below. Members are asking:

- ✧ *Is the statement attributed to you accurate?*
- ✧ *Will the \$100 million be taken NOW meaning schools will not have a 100% carryover of their general accounts?*
- ✧ *What formula will the District use to take \$100 million back? For example, every school has to find \$25 dollars per student.*
- ✧ *What happens if there is no money to take back?*
- ✧ *Will the District institute a policy preventing schools from spending all their discretionary/general fund dollars so there is nothing to take-back?*

Please advise.

There have been countless organization meetings with principals, assistant principals, and school support administrators since early February of 2018. Not once, has ANY District leader EVER mentioned the Draconian cuts herein. Moreover, the rank and file will tell you the previous Superintendent and Interim Superintendent stood firm and tall in their commitment to shield schools from such drastic measures. Frontline administrators will now feel a promise made by the District is now a promise broken, constituting an irreparable loss of trust. For the record, AALA too has been in countless meetings with senior staff. No one has had the integrity to discuss the District's intentions face-to-face. How is this being accountable to the employees the District purports to love as part of the LAUSD family?

What are we to do next?

Let them know what is happening, the negative impact this will have on the schools you lead, and have them contact Local District Superintendents, the Board of Education, and the General Superintendent prior to Tuesday when the Board is scheduled to act on the Superintendent's 2018-19 budget.
- ✧ **Breathe in** the notion that the District has every intent to balance its budget on the backs of frontline managers!

## **HEALTH BENEFITS FAQ— YOUR HEALTH BENEFITS COMMITTEE MEETS ALL YEAR LONG**

### **What is the role of the Health Benefits Committee?**

The Health Benefits Committee (HBC) plays an integral role in determining which health plans are offered to employees and retirees. A proposal review and evaluation process precedes all health plan contracts which are then approved for a three-year period, with options for an additional two years. While vendor contracts are in effect for a minimum of three years, the HBC negotiates premium costs for medical plans each year. Dental, vision, and prescription plans typically provide fixed rates for the three-year duration.

### **What authority does the HBC have?**

The HBC is responsible for proposing all plan design modifications, including but not limited to copays, deductibles, premium costs, and selection, addition, and/or termination of health plans/providers for all active and retired employees. The HBC has no authority over any proposed changes that would expand eligibility for benefits.

### **Given that we have enjoyed the same medical plans for more than eight years, is it safe to assume that we will have the same choices next year?**

Maybe not, since the majority of our healthcare contracts are expiring this year. Expiring contracts include all of our current medical plans, the District life insurance plans, flexible spending administration, and one of two vision plans.

### **What is the process for selecting health and other plans under the purview of the HBC?**

The HBC must approve the selection of all vendor contracts related to the health and welfare of employees and retirees. The selection process consists of the District issuing a public request for proposal (RFP), vendors submitting proposals, HBC/District review, and HBC recommendation to the Board to award contracts to selected vendors. Proposals detail how the same or similar benefits are provided and the cost of premiums. Each recommended vendor must be approved by the voting members of the Health Benefits Committee. Board approval is ensured, except in cases where there is "...good and sufficient cause" for withholding approval. The process for 2019 is currently underway and will be finalized by early fall to prepare for the November open enrollment period.

## FAQ (Cont.)

### **What leverage does the HBC have, if any, to offset proposed increases in premiums?**

For each of the years since 2009, the HBC has worked with a union-negotiated budget for healthcare benefits. Most importantly, the HBC has implemented cost savings with the given health and welfare budget that resulted in a surplus each year. The HBC has leveraged this surplus to maintain current benefits for each of the healthcare agreements since 2010. This surplus plays a crucial role in maintaining benefits for the latest healthcare agreement for 2018 through 2021.

### **Who sits on the Health Benefits Committee?**

The Health Benefits Committee (HBC) is composed of representatives of all District bargaining units and the District. The District and each union have one vote apiece. The eight (8) unions are: AALA, UTLA, Service Employees International Union (SEIU) Local 99, California School Employees Association (CSEA), Teamsters Local 572, Los Angeles School Police Association (LASPA), Los Angeles School Police Management Association (LASPMA), and the L.A./Orange Counties Building & Construction Trades Council.

### **How do AALA members address concerns?**

AALA provides support throughout the year, answering questions and interfacing with the District on health plans, as needed. Members may call the District at 213.241.4262 or AALA at 213.484.2226 for questions and concerns. When AALA or the District detect similar concerns, they are brought before the HBC. Members may also write AALA at: 1910 W. Sunset Blvd., Suite 850, Los Angeles, 90026, or send an email to [AALAOffice@aala.us](mailto:AALAOffice@aala.us).

Congratulations to the LAUSD schools included in *U.S. News and World Report's* 2018 Best High Schools. The periodical reviewed data from more than 20,000 high schools across the country and ranked nearly 6,000 as gold, silver, or bronze. Out of the 247 high schools in the District, 108 (includes affiliated and nonaffiliated charters) received gold, silver, or bronze medals. Listed on the next two pages are the 64 regular and affiliated charter high schools that received this recognition. The selection was based on each school's reading and math scores overall; the reading and math scores of disadvantaged students; graduation rates; and students' preparation for college-level coursework as shown by participation in AP or IB programs.

## CALSTRS MEMBERS: ELECTING AN OPTION CAN PROTECT LOVED ONES BEFORE YOU RETIRE

CalSTRS members who joined before January 1, 2013, are eligible to retire at age 55 with 5 years of service or before 55 with 30 years of service. At that time, whether they choose to retire or not, they have the opportunity to elect an option that will provide a monthly lifetime income for a loved one (does not have to be a relative) when they die; even if they die before retirement. This is called a preretirement option election. It will reduce the monthly amount received once the member retires, but will ensure that the beneficiary will start receiving a CalSTRS benefit whenever the member dies. There are advantages and disadvantages to choosing a preretirement election of an option.

## CALSTRS (Cont.)

### ADVANTAGES

- If you die before retirement, your designee will receive a monthly payment from CalSTRS for the rest of his/her life.
- The amount your beneficiary receives will be higher if you choose the option prior to retirement.
- The career factor applies if you die before retirement.

### DISADVANTAGES

- If you select a preretirement option and then cancel or change it before retiring, your retirement benefit may be reduced for life.
- If your beneficiary dies before you retire, the option is automatically canceled and your retirement benefit may be permanently reduced.
- If you change beneficiaries, either due to death or cancellation, you may have to pay an assessment.

Members are encouraged to attend a CalSTRS workshop or make an appointment to see a counselor to consider your options. You may reach CalSTRS at [www.calstrs.com](http://www.calstrs.com) or 800.228.5453.

## **CALPERS MEMBERS: OPTIONS AT RETIREMENT**

CalPERS operates somewhat differently in the manner in which its members can provide for loved ones after their death. CalPERS members must wait until their retirement to make this decision. At that time, they can choose to take a reduced monthly benefit in retirement in order to provide a lifetime benefit for the person they designate. The reduction to the member's monthly benefit is based on the life expectancy of the member and the beneficiary—the younger the beneficiary, the greater the reduction. In most cases, only one beneficiary can be named and it cannot be changed after retirement, except under limited circumstances.

If a CalPERS member dies before retirement, the benefits to the survivor depend on whether the member was old enough to retire or not, similar to CalSTRS. The benefits may range from a full refund of the member's contributions plus interest and up to six months' pay or a lifetime monthly allowance equal to one-half of the service retirement that would have been issued if the person retired on the date of death.
